Island Adventure Tours

BEACH PICNIC AND SAILING CRUISE

Climb aboard our 38-foot catamaran and sail the high seas of adventure toward the north, retracing the route of those who harvested the coconut crops for English merchants in the 1600s. Millions of coconuts were harvested each year and sent to England for their bakeries and restaurants. Just imagine pristine beaches lined with virgin coconut palms as far as the eye could see. Around lunch, your skipper will anchor near the coral rich Mexico Rocks; a popular destination that is perfect for beginner and advanced snorkelers. You won’t believe the beauty and color of this incredible coral forest!

When your snorkeling experience is complete, you will re-board your vessel to the alluring aroma of barbecue fish, chicken and shrimp, with all the trimmings, which will be served on deck. (Lobster and conch will be on the menu, when they are in season.) After lunch, a nap, sunbathing, or another dip in our crystal-clear water is part of the agenda before heading back home.

BACALAR CHICO RESERVE TOUR

If you like adventure, this is it. This “channel,” sometimes referred to as a “cut,” was hand dug by the Mayans over 1,500 years ago. If you want to see a real primitive piece of history, go through Bacalar Chico Channel. About halfway through the channel, you’ll see a small waterway to one of the most unusual discoveries in modern times—the cenotes of Bacalar Chico. Eleven 15-foot diameter holes penetrate the limestone floor of this secluded body of water and you can see the reflective rays of sunlight penetrating its depths.

After your journey through the Channel is complete, you will head to the Bacalar Chico Reserve. This area of ocean in front of where you’ll picnic, lies inside the reef and will remind you of a thousand Olympic size swimming pools: clear and calm. Your skipper will anchor the boat and help you safely to the beach where you’ll help gather coconut husks, over which the “catch of the day” will be grilled by your team. Potato salad, coleslaw, chips, salsa and fresh conch ceviche will be waiting for you when you get hungry. After lunch, hike the “bird” trails and observe the unusual habitat of the numerous species of birds and wildlife that live pampered lives in this remote area of Ambergris Caye. If birdwatching is not for you, then take a nap, journal or take a dip in these crystal-clear waters.

After you’re done at Bacalar Chico, your skipper will take you outside the reef for a 12-mile ride southward to the Basil Jones Cut where you’ll enter the protective waters behind the reef. Once back inside, you’ll continue to Matachica where you can take one last swim or snorkel before returning to your resort. Tour includes transfers from/to your island resort, expert guides, lunch, bottled water, soft drinks.

Continue across the lagoon to Bird Island an uninhabited mangrove island home to numerous species of tropical birds. An added bonus is combing the beaches for that just right shell as you watch the islands birds go about their daily routine. Large fish are plentiful, but the number of small colorful fish will take your breath away. Sharks, rays and barracuda are also residents of Hol Chan, as are a few sea turtles, eels and grouper. While we’re at Hol Chan, your skipper will anchor for 15-20 minutes and you can see firsthand the creative genius of this undersea wonder. Next, the glass bottom boat will take you to the amazing Shark Ray Alley where you can observe sharks and rays from the safety of your glass bottom boat or get in amongst the.

Enjoy a leisurely and scenic boat ride from Caye to Caye as you make your way to Swallow Caye. As you approach the cut in the island, your guide will turn the motor off and as you sit silently, he will pole you into the lagoon where the manatees live. The manatees are gentle giants. They reach weights of 400 – 800 pounds and are about 10-feet long.

After your Swallow Caye Manatee experience, your skipper will take you to Goff’s Caye which is a small but beautiful island. Put your beach towel beneath one of the 10 swaying coconut palms and take a nap while your skipper and his crew prepare a scrumptious meal, grilled over coconut husks. After lunch, continue your nap or snorkel off Goff Cayes pristine sandy beach.

Mainland Tours from the Island

ATM CAVE (BY PLANE)

After arriving to Belize City by plane (15-minute flight) we transfer into a van and we drive for about 1 hour and 20 minutes on the George Price highway which is on the western part of Belize into a village known as Teakettle village. We then drive 7 miles off road into the cave area. Upon arrival at this area we take a walk across the river at 3 different locations and swim into the cave to discover the hidden Maya wonders. This cave is one of the most popular Mayan burial sites in Western Belize. The cave contains four skeletons, ceramics, and stoneware left by the Maya. The most famous skeleton inside the cave is that of a young girl, the bones of which have been completely covered by the natural processes of the cave, leaving them with a sparkling appearance. For our lunch session we have 2 options. We either have lunch on arrival at the cave or when we are leaving the cave to return to the city. We get back to the village (Teakettle) at around 3 o'clock and then we drive back to Belize city for the flight back to San Pedro.

Please note a good level of physical fitness is required. The ability to swim and be comfortable with small spaces is necessary. Any person visiting ATM Cave must be taller than 40 inches. Children smaller than this requirement will not be approved on this adventure. No cameras allowed in the cave. Tour includes transportation, lunch, water, sodas, drinks, park fees, and special guide for the cave.

Get ready for the zoo of all zoos. You won't believe it. It's incredible! There are no bars, no moles and no barbed wire to keep the animals secure. Simple enclosures that will boggle your mind maintain your safety, while allowing you to see various animals, birds and reptiles in their natural habitat. The folks who came up with this concept are certain to receive great accolades from zoologists in the years to come. The zoo was created as a sanctuary for the country's indigenous species and is now home for an impressive array of large cats, primates, reptiles and birds. A visit to the zoo gives you the opportunity to see Belize's amazing wildlife in one location.

The tour includes lunch, bottled water, soft drinks, park and entrance fees at both sites.

LAMANAI MAYA RUINS AND NEW RIVER TOUR (BY BOAT OR PLANE)

From Ambergris Caye enjoy a scenic 1-hour boat ride or take a quick 15 minutes flight to Belize City, where a van will be waiting to take you through the city and up the Northern Highway. After an hour and fifteen minutes of observing the scenery and cultural elements of Belize, you'll come to the small bridge at Tower Hill. There you'll be picked up by one of our friendly associates from Lamanai. You'll really enjoy this boat ride through a real jungle on a real jungle river. As you make your way along the New River, you'll see monkeys, baboons, snakes, crocs, Macau, parrots and you might spot a Jaguar, like some of our guests have done.

This archaeological site is located beside New River Lagoon and is shrouded by large hardwood trees filled with monkeys and birds galore. The guides, many of whom are of Mayan descent, will tell you tales of their ancestors and one might

even tell you that he's discovered the fountain of youth, and to look at some of them you might think they have. While you listen to their tales, you can climb any of these well-preserved Mayan temples.

Once you set foot on this world-class site, your mind will conjure up images of the ancient Maya kneading their grain, roasting their corn and preparing for one of their many ceremonies. As you walk through this abandoned site of an ancient civilization, history seems to come alive as the reflections of the past beckon you to delve deeper into this mysterious world of the Maya.

When your eyes and mind can consume no more, we'll have a delightful lunch waiting for you. During or after lunch, you can visit the Lamanai gift shop and take home a souvenir from the past. Join your party at the van and head back to Belize City for your boat ride or air transfer back to your resort.
